# Success Stories

## Digital Infrastructure Company

USEReady helped the customer migrate from its legacy BI platform to Tableau, a modern and powerful data visualization tool.

### Outcomes

- Retire its legacy BI and embrace a modern BI
- Enable self-service reporting for SDMs
- Improve report performance by 80%
- Increase user satisfaction and adoption
- 25% lower costs and 40% better resource utilization

## Large Financial Services Organization

USEReady deployed Pixel Perfect, a reporting extension for Tableau, to create wealth summary and holding reports for the end users.

### Outcomes

- Customized, well-formatted reports for 40,000+ users
- Enhanced end user reporting experience
- Automated report generation and 99.99% on-time distribution
- 60% Reduction in manual effort and 0% errors in report creation
- Added value leveraging its existing Tableau investment

USEReady is a data and analytics firm providing strategies, tools, capabilities, and the capacity for businesses to turn their data into competitive advantage. An industry leader in migration services, USEReady with its purpose-built accelerator tools enables organizations to succeed with data.

### Headquarters

New York, NY – founded 2011

### North America

Cranford, NJ,  
Mississauga, Canada

### Global Presence

**Republic of Singapore**  
**India:** Bangalore, Gurugram  
& Mohali

### Differentiators

- Deep domain expertise across industries
- Support for HIPAA compliance and other regulatory compliant environments
- Full spectrum of Data and Cloud Capabilities
- Unique Accelerator Tool Kits for Tableau and Salesforce Use cases
